### MARINER

The Mariner collection stands out with its typically seafaring symbols. Eye catching distinctive marine emblems such as the blue wind rose and compass have been thoughtfully placed for dramatic effect on the new black or white Cintrée Curvex™ shaped dials.

The color of the sea, featured on the skeleton numerals and hands, immediately evokes the feeling of the marine, inspiration for this new collection of timepieces.

The Mariner displays hours and minutes, seconds in a counter at 9 o'clock and the date at 6 o'clock. The chronograph function is featured with central seconds while the 30 minutes counter is placed at 3 o'clock. Robust push-pieces positioned on the side of the case, together with a powerful crown, emphasize once more the dynamic character of the line.

This collection is available in 3 Cintrée Curvex case sizes as follows: steel, gold, platinum and a PVD "all black version". Last but not least, the sporty mood of this innovative timepiece continues with a rubber strap or it can be "softened" by an elegant hand-sewn alligator strap.

### MARINER

The Mariner collection stands out with its typically seafaring symbols such as the compass and compass rose which have a prominent place on the dial. This collection also features a chronograph version, with a central second and 30- minutes counter positioned at 3 o'clock. The sporty spirit of this innovative collection is emphasized by a rubber strap, whereas the hand-stitched alligator strap gives it a more traditional appearance.
