

FRANCK MULLER

GENEVE

VANGUARD COBRA™

The fascinating world of reptile has always been a source of inspiration for Franck Muller. Following the success of the Croco Collection, the Manufacture now introduces the Vanguard Cobra™ - this distinctive collection features a case and a dial adorned with cobra scales. The perfect continuity between the case, the dial and the strap creates a striking uniformity.

The Cobra collection is entirely conceived and assembled at Franck Muller. The scales have been milled from a mass of 18 carat rose gold or stainless steel to create the most realistic cobra scales aspect. The eye-catching cobra scales emphasize the stylish and sporty character of the Vanguard.

This new collection is complemented by a rubber and leather cobra effect strap.

Housing either an automatic or a manual movement and offering a power reserve of 42 hours, the Cobra Collection will enchant watch aficionados with an eye for style.
